I. Teaching Strategies Gold

Assessments are completed according to schedule. Developmental areas are sampled during various times of the day, taking place within a child's natural context. Assessment methods are play based.

Strengths	Area for Improvement
Assessment completed according to schedule,	Evidence of learning was not identified under science technology social studies.

II. ASQ

ASQ is completed within 45 days of enrollment and upon transitions. Referrals (if needed) are made within 60 days. All referrals are documented.

Strengths	Area for Improvement
Completed within 45 days, parent ASQ obtained.	parent ASQ is not scored correctly.

III. Informal Assessments

Observations are individualized, specific, factual and provide sufficient details to create a clear picture of what occurred.

Strengths	Area for Improvement
Observations completed each month (8 notes ea. month totaling 2 under each domain.)	Provide sufficient, factual observations to create a clear picture.

IV. Child's Work

Child's work includes a description, standards and a statement of relevancy. All work that is collected should show progression and growth.

Strengths	Area for Improvement
Work samples provided display hands-on learning experiences.	Include child's name, date, activity description and curriculum goal on each work sample. Collect samples that show progression and growth.

V. Connections

The teacher makes connections between the child's portfolio, individual child planning and classroom activities.

Strengths	Area for Improvement
The learning materials within the environment correlated to the weekly lesson plan.	observation notes should correlate to the child's work samples.
