Term & Conditions: Existing Families: Clever Bee enrolled families will receive \$300 per new family referred.

Referred families must stay enrolled for at least 60 days for referrals to be valid. Families can receive up to \$1800 per year. The family referring a new family must still be enrolled at the time the referral is issued. After all criterias are met, funds will be applied to outstanding balances for our academies first and then a family may choose to: 1) election to roll remaining referral balance to future months or summer field trips for school-age children (if applicable); or 2) receive the remaining balance in an ACH/Check payment (include instructions). Pending funding families and returning families enrolled within the last year do not qualify. New Families: A referral program form must be completed and submitted with enrollment applications for tracking purposes
